Yesterday we went back a century to look at the climbers of Everest. Today we will go back thirty centuries and more, to look at Ancient Assyria.

Why? Well, because it is what the Muses sent me today. I don't question it beyond that. Somehow this landed on my plate. I read something about the Lost Tribes of Israel today and looked it up to learn more. As you may know, these ten tribes were exiled by Assyrian conquerors in 720BC. One of the exiled tribes was Asher, which we have looked at before. So that lodged in my brain. The king in 720 was Sargon, but the most famous king of the Neo-Assyrian Empire was Ashurnasirpal II, and his capital was Assur. That is why they were called Assyrians. But Assur was also known as. . . are you ready? . . . Ashur.

Are you with me so far? Yeah, so you already see why I am here.

and

So as with my paper on the Persians, we are seeing the divisions between Assyrians, Egyptians, Phoenicians and Israelites are mostly manufactured by later Jewish historians, for the main purpose of hiding the Phoenicians. They want you to believe Phoenicia consisted only of some limited coastal dominions along the Mediterranean, with Phoenicia being subsumed by Assyria in around 850BC. They don't want you to realize that Assyria/Persia/Babylon/Phoenicia/Canaan/Israel were all the same people and that Phoenicia has run the world for 5000 years or more, and still is. They create these ancient divisions for the same reason they create the Modern ones now: to make you think nations and states are fighting one another and competing for dominance. To have a Cold War and huge defense budgets, you have to believe Russia and China and the US are separate entities, run by different people. If you realized the whole world is owned and run by the same Phoenician families that ran it thousands of years ago, you would stop allowing yourself to be taxed to maintain the fiction it isn't.

So, just as they make up fake news every day about conflict around the world, they made up historical divisions and wars, to hide the fact the Phoenicians have been behind all governments since 3000BC. We saw the same thing in WWI that we saw in the Punic Wars and these wars between Israel and Assyria.* We now know all the divisions in WWI were fake and manufactured, since close cousins ruled all the countries on both sides of the conflict. The kings of Russia, England, Germany and Denmark were first or second cousins, and the kings of the other countries were hardly more distant. Their families had ruled Europe 2000 years or more, even according to the mainstream. You can follow their genealogies at Geni.com or Geneanet. Same thing with the Punic wars between Rome and Carthage, since those families were again cousins from way back. They had been snogging and intermarrying since the time of Dido and before, and they were both Phoenicians.

Well, when we dig we find the same thing here. I already showed you the blood relationships between the Persians and Jews, since they are admitted in the Bible. The Persians liked to take Jewish wives, and that is because they were all cousins. But it was more exotic to bring in a wife from down the road, to set the tongues wagging. Same with the Assyrians, see for example the queen of Ashurnasirpal, whose name was Mullissu Ninua. A bit obvious, isn't it? Ninua is just a variant spelling of Nineveh, and just happens to be the Phoenician spelling. And of course Mullissu is just a bad spelling of Melissa, an old Hittite word meaning bee, same as it does now. The Hittites were again the old Phoenicians by a different name, being the Phoenicians of Turkey in the late bronze age. And the Phoenicians/Hebrews have always loved their bees, as we know.
